

# How will platforms and assistance systems influence the coatings industry in the future?

Visionaries have no rivals.  
EVONIK COATING ADDITIVES

Dr. O. Kröhl,  
VP Strategic Business  
Development

January 2021,  
SVLFC Tagung

**New digital competitors are coming up in various industries.  
They show a strong willingness to invest and to change rules.**

In B2C, we already faced how new digital entrants dramatically changed the way customers interact with companies.

**But also our  
business life.**

**Digitalization is  
starting to have a  
real impact on B2B  
via Artificial  
Intelligence, IoT or  
Machine Learning.**

**2020 might be seen as the tipping point for digitalization in B2B and especially a game changer in the Chemical industry.**

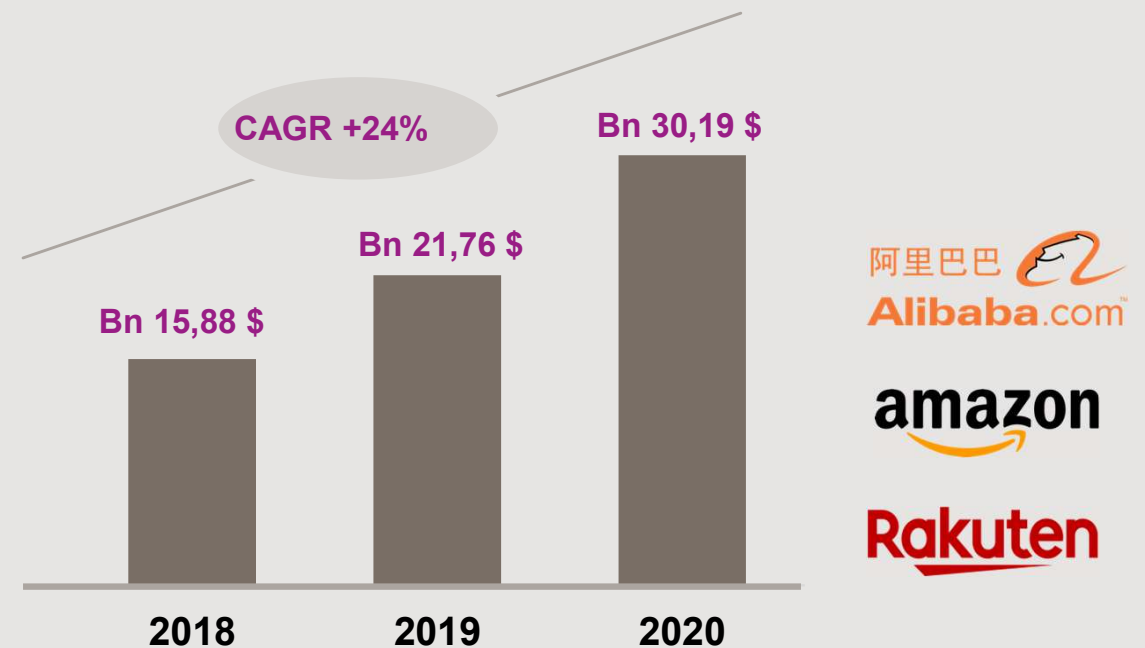

# Digital assistant systems have grown significantly. Third party suppliers conquer the B2B marketplaces.

Estimated number of users of virtual digital assistants worldwide

Third-party marketplaces account for most of B2B gross merchandise volume

# The Chemical industry is facing three main challenges.

## Manage Complexity

- # Customer requirements
- # Raw materials
- # Regulations

## Increase Efficiency

- Matching of Needs
- Targeted search
- Faster development

## Drive Innovation

- Shorten time to market
- New customer expectations
- Shorter product life cycles

**The chemical industry has started since 2016, but does not yet offer its chemistry and products in a broader context**

Most chemical marketplaces were found in  
**2016**

Most chemical marketplaces offer products from up to

**25,000** suppliers

Newly launched vertical B2B markets:

More than **50**

**> 60**

B2B platforms dealing with Chemicals on a trading platform or eAuction

**>100**

Different B2B Marketplaces serving various industries – including Chemicals

Most chemical marketplaces offer up to

**10,000** products

**We need to act and  
start transform our business.**

**And it starts with:  
Rethink innovation.**

**Innovation potential  
is everywhere.**

**And every colleague  
is an innovator.**

# Innovation is leaving R&D and Applied Technology centers

**Change perspective**  
Everything is thought out  
from the customer

**Encourage people**  
Implement an open  
innovation culture

**Collaborate with partners**  
Share knowledge, join  
forces, tackle the market

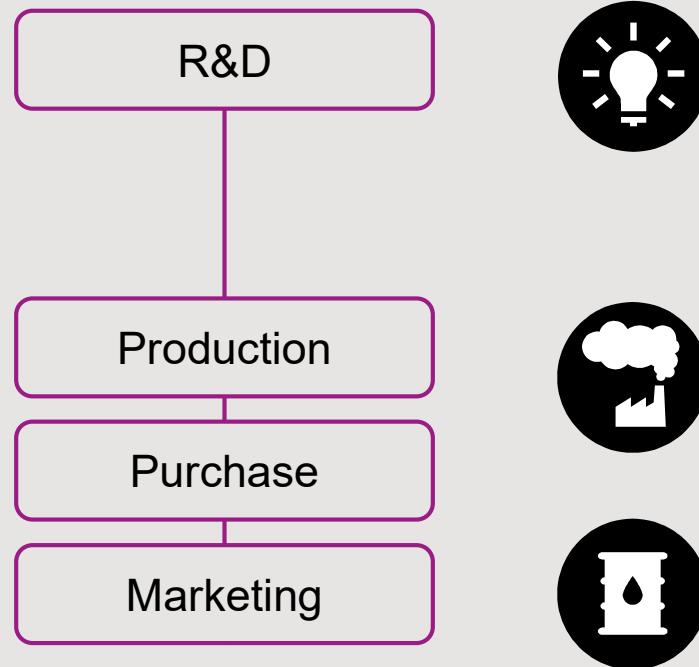

**Break up restrictions**  
Flat hierarchies, agile  
project management

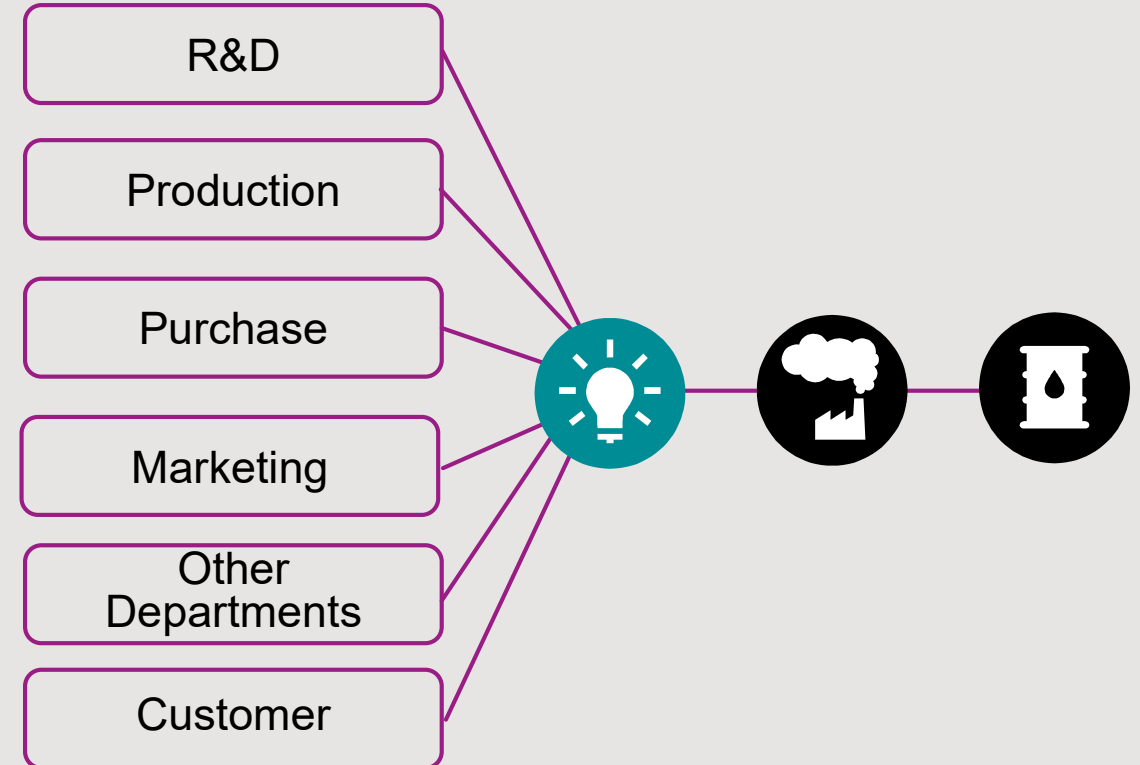

**Foster collaboration**  
Implement customer &  
cross-functional teams

**Allow mistakes**  
Try fast and kill fast

# Innovation is leaving R&D and Applied Technology centers

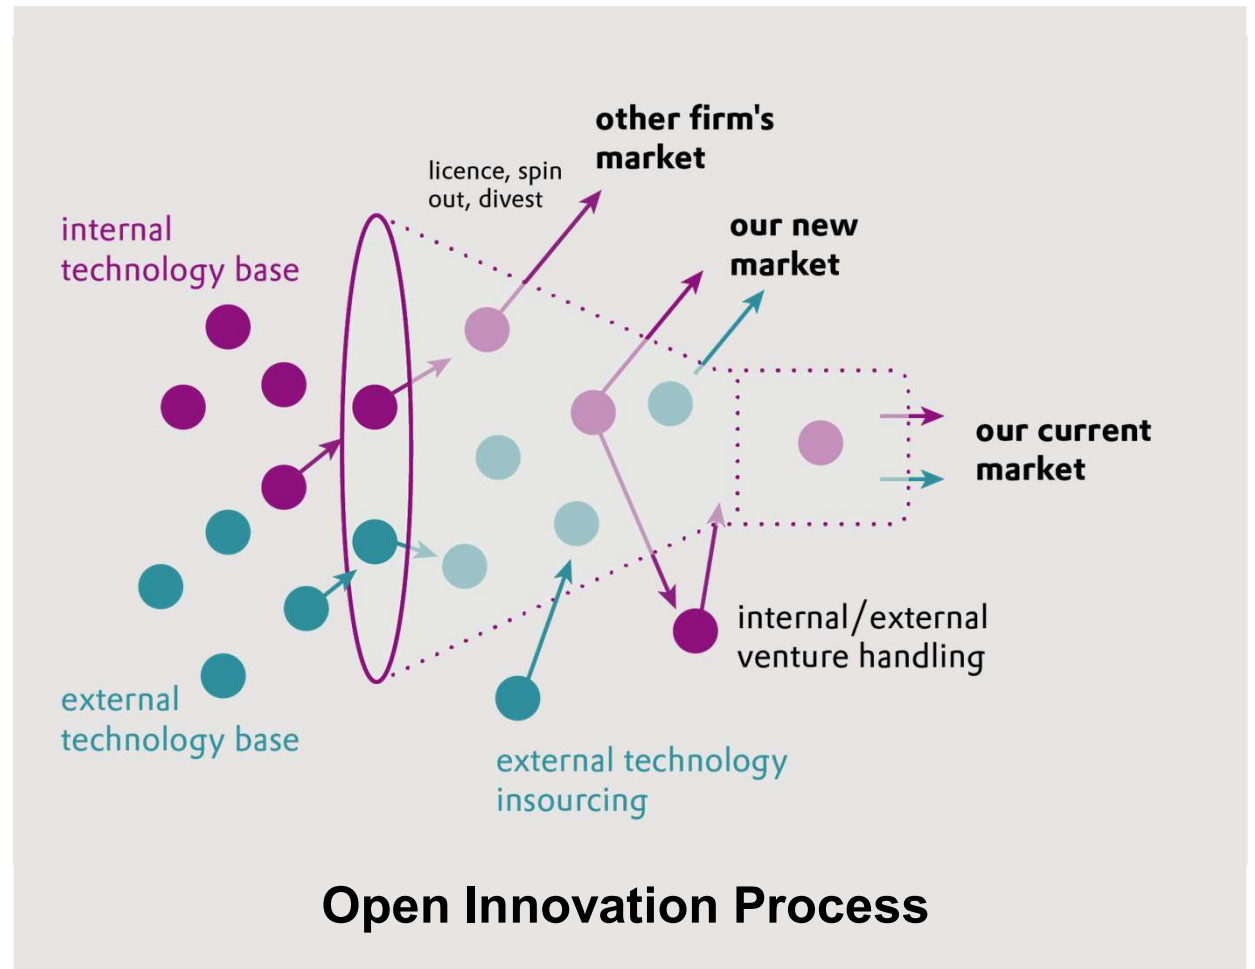

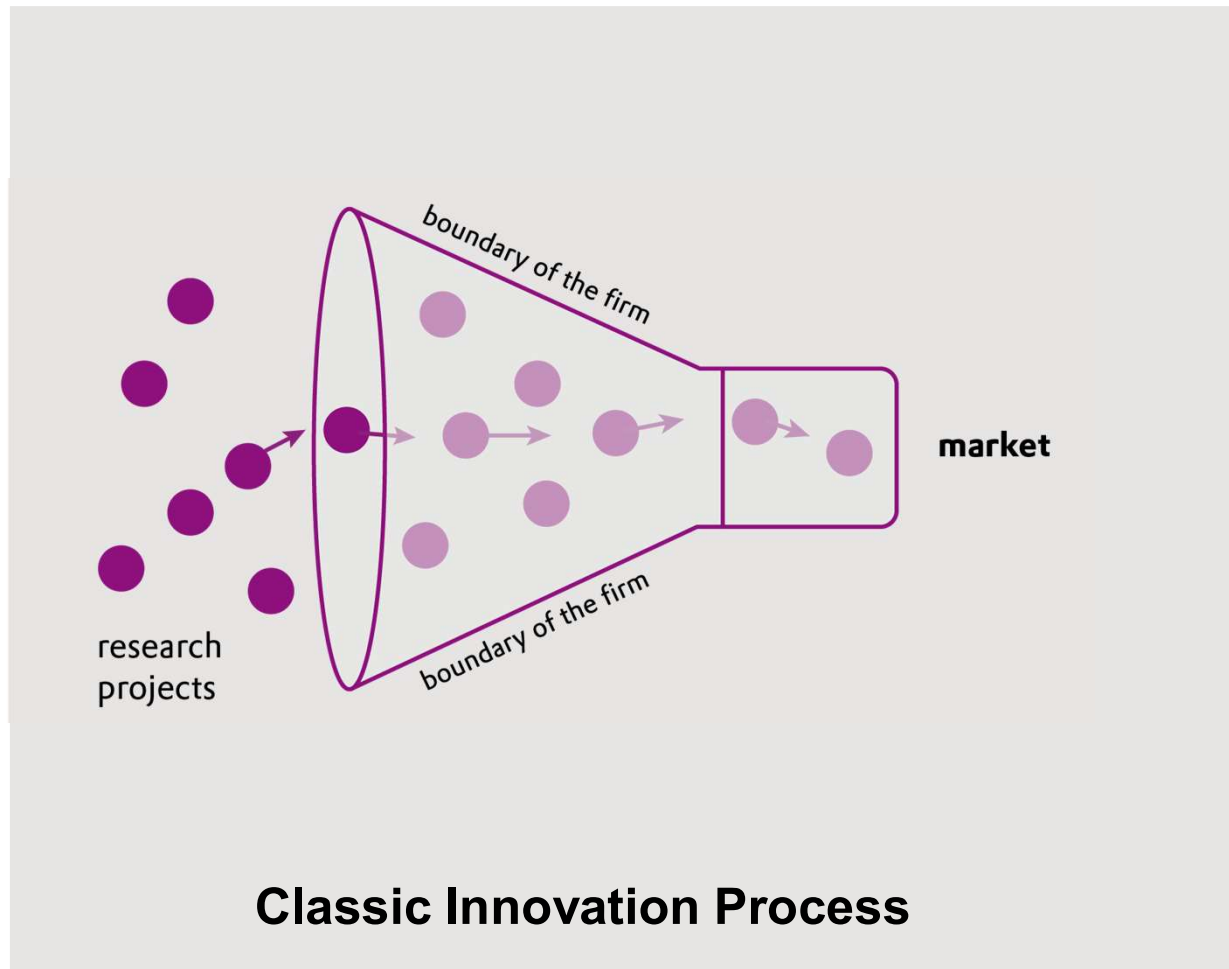

**Traditionally innovation takes place in R&D departments**

**In agile innovation processes all departments participate for a certain time**

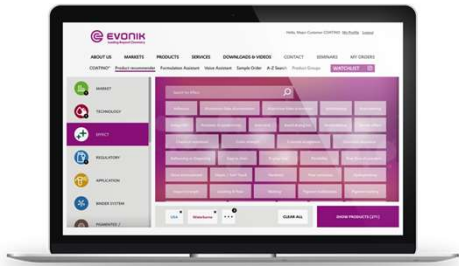

# Innovation is leaving R&D and Applied Technology centers

**With COATINO<sup>®</sup>, the first digital assistant, we made the start.**

**The start for an industry-specific solution to manage complexity, increase efficiency and support innovation.**

# Use Case COATINO® – Your shortcut to better coating formulations

## Product Recommender

- Find your coatings solutions fast & easy
- Analyzes, compares, and recommends hundreds of additives

## Formulation Assistant

- Based on AI-supported algorithms
- Countless guiding formulations according to your needs

## Voice Control

- Handles the specialist vocabulary of technical language
- Hands-free access to the world of formulations

## Partner Network

- Smarter interaction
- Facilitates access to new solutions
- Provides competitive advantage

# COATINO® thrives on its network and invite industrial partners to join

Cooperation  
makes it  
**faster**

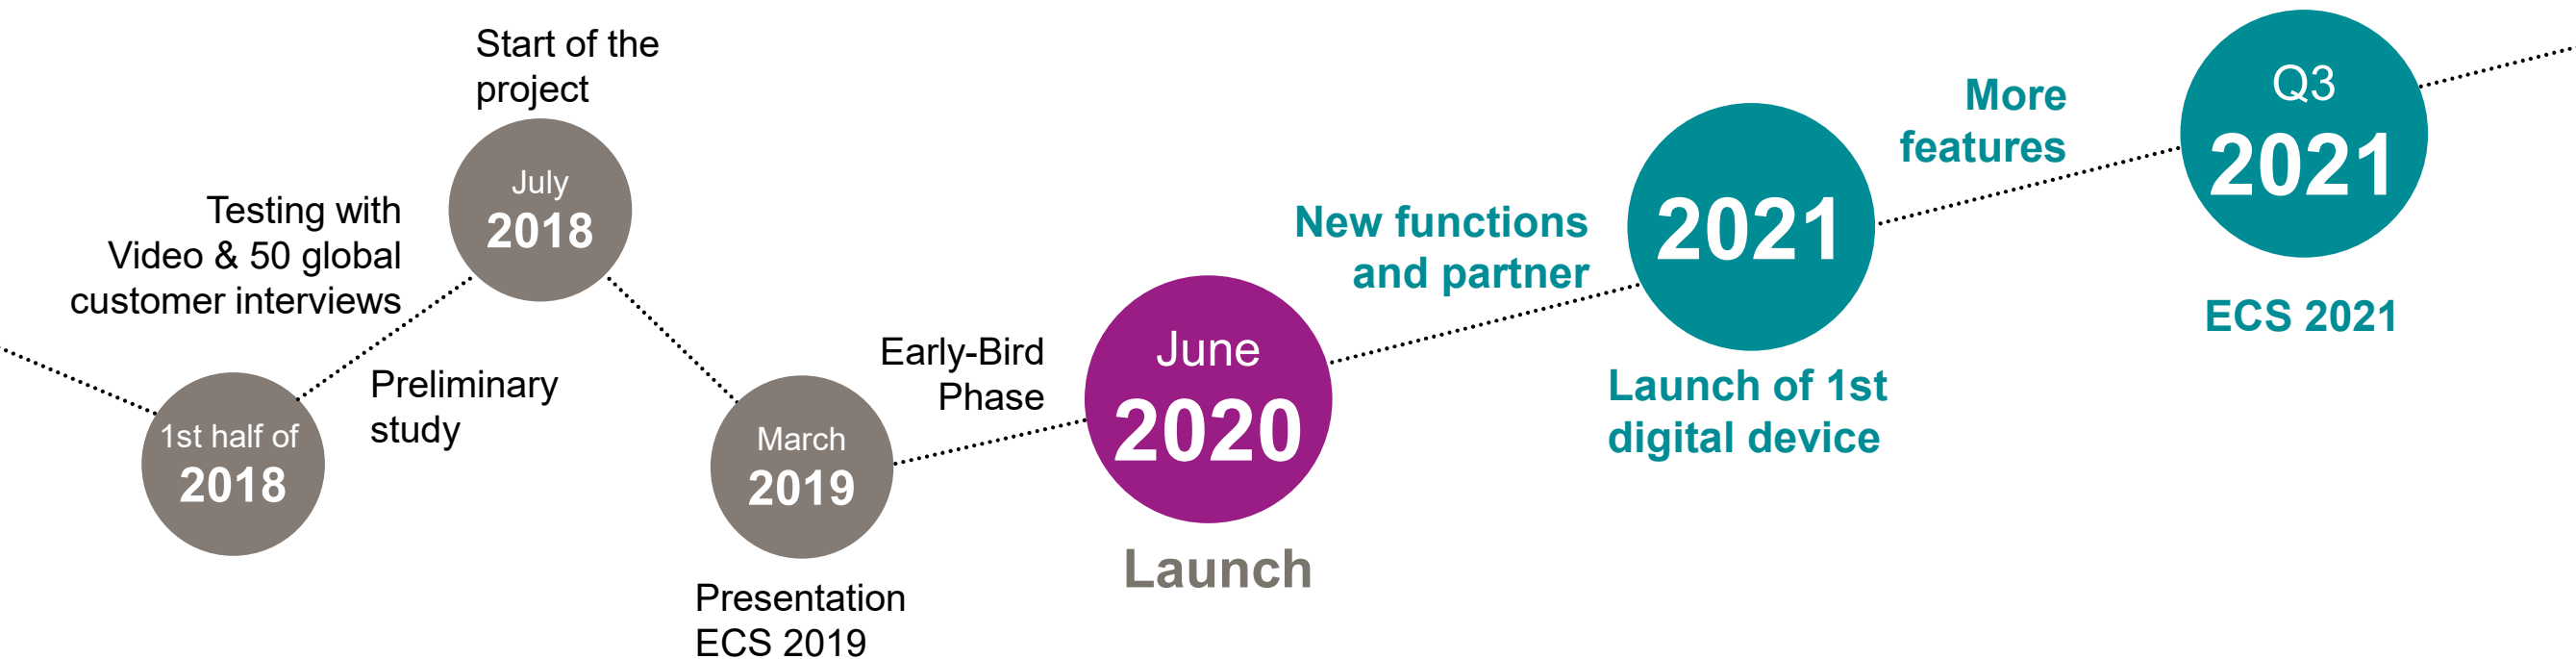

Cooperation  
makes it  
**smarter**

We have started talking to industry partners who are joining, participating in, and contributing to the dynamic formulation network – join us.

Cooperation  
makes it  
**better**

# Use Case COATINO® - The Dynamic Formulation Network...more to come.

**Customer-oriented, collaborative, cross-functional agile and fast**

**Investments are indispensable, especially in times of crisis.**

**Small, agile competitors will now seize every opportunity to fill new gaps.**

危机

**CRISIS = DANGER + CHANCE**

~~We could,~~

~~we must,~~

~~we had,~~

~~we should.~~

**We do.**

# Shape YOUR digital innovation.

**Think in  
chances, not  
in risks**

**Adapt to a  
changing  
business &  
customers  
behavior**

**Find partner  
& build a  
network**

**Take  
controllable  
risks**

**Find your own  
way**

**EVONIK**

**Leading Beyond Chemistry**
